Original Pork Frog

Big Daddy Frog

Pork Night Crawler

PORK IS BACK. CELEBRATING 100 YEARS OF CATCHING FISH.

IT'S BACK

11 Original Pork Frog

A fishing legend has returned. The world's most popular rind pattern is back after a five year break. Chunky, fleshy body with a beveled face and thin flexible legs. The perfect imitator of frogs and crawfish is ideal for the famous "Jig N' Pig" combination. Especially effective for bass and northern pike.

#11 2.5" x 1" 3 Per Jar

ATTACHING PORK

Locate pork slit. All pork rind is pre-punched for easy rigging. Insert hook point and slide pork over the barb.

REMOVING PORK

Turn pork sideways so barb and slit are in same direction. Push hook to one side of slit. While applying pressure, slowly work the barb down and out.

Use With Jigs, Spoons and Spinnerbaits

IT'S BACK

10 Big Daddy Frog

Returning alongside the Original Pork Frog is it's big brother the Big Daddy Frog. Big Daddy features the same great fish catching attributes as the #11 but is larger in size for bigger, hungrier fish. Great for landing bass, muskie, and northern pike.

#10 3 1/4" x 1 1/8" 2 Per Jar

IT'S BACK

7N Pork Night Crawler

The 7N Pork Crawler has a swimming action just like a real night crawler. Likelife and flexible, it wiggles and twitches with the slightest vibration, yet stays on the hook, won't get bit off, and lasts through multiple fish.

7N 7" x 1/4" 4 Per Jar

Hyper-Glide®

The Acme Hyper-Glide features an injected plastic minnow body with wings that resemble real fish fins and open each time the bait falls. As the wings open, the bait glides as if it's swimming. Fish it vertically in open water and ice fishing. Shake it vertically and the wings open and close quickly. Cast it in open water to cover an extreme area as you bring it back to the boat. The Hyper-Glide searches and hunts fish on every cast! Use this bait to catch every species of fish that swims.

Kastmaster XL®

Anglers asked Acme for a lure that would “match the hatch” when predators were feeding on slender-bodied bait fish such as sand eels, anchovies, silversides, candlefish or smelt. Our answer is KASTMASTER XL! Precision machined, KASTMASTER XL is equally effective whether cast, trolled or jigged.

Equipped with a stainless steel split ring and treble hook, KASTMASTER XL is deadly for stripers, bluefish, bonito, albacore, seatrout, salmon, spanish mackerel and other gamefish.

Kastmaster® with tube tail

Kastmaster's famous fish-catching action combined with the attraction of a surgical tubing lure is irresistible to a variety of gamefish including barracuda, bluefish, weakfish, stripers, cod and pollock. The durable latex rubber tube is attached to the Kastmaster with a swivel, which helps to prevent a hooked fish from twisting itself free from the lure. Kastmaster with tube tail is equally effective for casting or trolling and is especially deadly when vertically jigged.

RATTLE MASTER

Kastmaster®

Kastmaster's balance produces wild action without line twist! Because of its aerodynamic design, it's the master distance caster, and catches fish from pan-sized trout to bragging-sized stripers – in fresh and salt water. The Kastmaster is precision machined. It will not break, bend or corrode and it retains its luster even after repeated exposure to salt water.

1/32 oz., 1/24 oz., 1/12 oz. (2-4 lb. test) for the light tackle specialist — ideal for trout, panfish, shad & ice fishing.

1/8 oz., 1/4 oz. (2-4 lb. test) ultra-lite, light spinning & ice jigging — for trout, pickerel, panfish, smallmouth bass, snapper blues.

3/8 oz., 1/2 oz. (6-10 lb. test) medium spinning, bait casting — for large trout, white & black bass, and smaller saltwater species.

3/4 oz., 1 oz. (10-15 lb. test) medium-heavy spinning, baitcasting, trolling, in fresh or salt water — for salmon, steelhead, and many salt water species.

Little Cleo® Color Chart

Little Cleo®

Second only to the news that salmon and steelhead were tearing up tackle in the Great Lakes was the discovery that Little Cleos were the surest way to catch them. To anglers in the know that wasn't really news. For over 30 years Little Cleos have been taking limit catches of gamefish throughout North America. The unique hump-backed shape of Little Cleo results in a seductive, wiggling action as the lure is drawn through the water. The illusion created is one of a fat baitfish, acting in an erratic, confused manner. This odd behavior triggers the predatory nature of the gamefish, who strike out of curiosity and anger, as well as hunger. This three-way appeal hooks them every time, and explains Little Cleo's fantastic success — it's famous countrywide as the one lure that takes all gamefish.

Side-Winder®

Experienced ice anglers know that vertical jigging with Acme spoons is one of the most effective ways to target trophy fish under the ice. When jigged with quick, short lifts of the rod, the Side-Winder darts upwards and falls with a fluttering action that imitates an injured or scared shad, shiner or other baitfish. Longer, slower jigging strokes allow the sidewinder to have a unique rocking motion to trigger more stubborn fish. Fish this spoon with no-bait, or with a minnow head to add scent, either way, trophy fish can't resist.

K.O. Wobbler®

This lure excites fish by sight and sound! Gamefish are sensitive to the vibrations created by baitfish on the move. K.O. Wobblers mimic this sound with their precision-engineered "Sonic Flipper Tail". Once they are drawn by the sound, gamefish are excited into striking by the K.O.'s flashing tail and seductive side-to-side wobble. It's an offer they can't refuse.

1/2 oz. (8-12 lb. test) spinning, baitcasting trolling – for large trout, bass, pike, steelhead, landlocked salmon.

3/4 oz. (10-15 lb. test) for heavy spinning, deep trolling, casting – for Pacific and Great Lakes salmon, lake trout, salt water fish.

Kamlooper®

Casts like a bullet, travels for a country mile — Kamlooper is virtually unaffected by strong winds. The best of the spoon lures, it's perfect for catching gamefish (which gobble 80% of their prey from the bottom or in deeper feeding zones). The high weight /profile ratio means that the Kamlooper gets down where the big ones live and eat. There is only one Kamlooper and smart fishermen know it.

3/8 oz. (6-10 lb. test) for trout, lake trout, bass, walleye, salmon, steelhead, pike.

3/4 oz. (10-15 lb. test) for trout, steelhead, salmon, pike, muskies, trophy-class brown & Dolly Varden trout.

Stee-Lee®

These casting spoons are a favorite of stream and river anglers all over the Northwest. They are proven winners for steelhead when cast into moving water and allowed to wobble as they are drifted on a tight line near the bottom of the stream. They are equally effective for salmon under similar circumstances.

6" Mogambo Grub

DESIGNED TO START WORKING THE MOMENT IT HITS THE WATER! The MOGAMBO GRUB which was used to set numerous freshwater world records in the Great Lakes is a proven performer for flippin', pitchin' or topwater. In saltwater the MOGAMBO has quickly become a favorite lure of saltwater anglers all over the world.

8" Octogambo Grub

DESIGNED TO START WORKING THE MOMENT IT HITS THE WATER! The OCTOGAMBO GRUB, just like the Mogambo is a proven performer for flippin', pitchin' or topwater. A highly demanding lure that is sure to be a favorite of anglers from coast to coast.

10" Big'N Grub

A 10-inch "MONSTER OF A GRUB" that delivers the same proven action as found in our popular 3" and 5" versions, but in a size suited for big-game.

Put in on a heavy BIG'N LEADHEAD JIG and go deep for bottom fish. Or, pull it at normal trolling speeds for a look that standard feathers can't match.

1-3/4" Triple Threat Crappie Scrub

The 1.75" Kalin's Crappie Scrub comes in your favorite Triple Threat color and you will love the tantalizing action from the double paddletail Crappie Scrub. Rig it on your favorite panfish jig and the Crappie Scrub will do all the work for you. Be sure to stock up for the entire season and enjoy the great fishing!

2" Triple Threat Grub

Kalin's offers a wide selection of 2" Grubs to cover almost any application from smallmouth bass to bream. The Triple Threat colors offer a range of color combinations that cannot be found anywhere else. These grubs are great for crappie, walleye and small inshore saltwater game fish.

3" Triple Threat Grub

What others call new technology we have been doing for 15 years. Triple Threat Grubs feature tri-color patterns that imitate game fish natural prey. Patented design produces maximum action at the slowest possible speed.

2" Triple Threat Tickle Grub

The newest member to the triple threat family. Our highly successful tickle grub is now available in select triple threat colors and 2 inch panfish/crappie size.

2" Triple Threat Tickle Tail

The tickle tail has quickly become one of the most successful bait in the Kalin's lineup for larger gamefish species. We are now letting crappie anglers in on the action by offering the tickle tail in a 2 inch profile in select triple threat colors.

Wac-o Jig

Fishing the Kalin's Wac-o Jig is an extremely versatile technique that can be applied on any body of water. The round ball head features an extremely sharp 1/0 VMC hook for solid hook ups. The most important quality of this technique is the ability to keep the bait in one place while shaking it. Tip your favorite soft plastic bait or a Kalin's Weenie Worm and the action created by the Wac-o Jig is a lively quiver, ideal for enticing highly pressured bass. Make sure to have a slack line and hold the rod tip up at a 10 o'clock position for best results.

Bass Series — Football, Swimbait & Swing Football Jigs

The Google Eye Swimbait and Swing Ball Jigs create the deadly combination of matching-the-hatch along with sight and sound to trigger aggressive strikes! It's Shockwave Rattle System has been designed to call fish in and trigger a bite. Cast it, Jig it, Twitch it, Rip it, or use a slow steady retrieve along the bottom to match the mood of the fish. The Life-like rattling jig head features a glass eye to reflect light and add additional visual dimension and action to the jig. Specially selected color patterns have been chosen to grab the fish's attention, and put more fish topside. Big fish don't stand a chance!

(((RATTLIN')) GOOGLE EYE

The Google Eye Series combines sight and sound to trigger more bites in all water types! It's Shockwave Rattle System has been designed to call fish in and trigger a bite. It can be rigged with your favorite Kalin's plastics, or with live baits, making it one of the most versatile fish catching lures in your tackle box. Cast it, jig it, twitch it, rip it, or use a slow steady retrieve along the bottom to match the mood of the fish. The high carbon steel Katana™ hook, colored in Red, is precision sharpened, and hardened to ensure a piercing hook-set. The Life-like rattling jig head features a glass eye to reflect light and add additional visual dimension and action to the jig. Specially selected color patterns have been chosen to grab the fish's attention, and put more fish topside. Big fish don't stand a chance. The Google Eye Series is sure to become the new standard by which all other jigs are measured.

Original Beaver Dam Tip-up

This is the tip-up that started it all more than 50 years ago. Beaver Dam Tip-ups have been designed, tested and proven to meet the demands of ice fishermen all over the world. The Original Beaver Dam Tip-up is all hand made and assembled one at a time. Each tip-up is freezeproof, windproof and foolproof, allowing you to have a better time on the ice.

BDTP-CL

Five Branches Tip Up

A board designed to pay respects to the United States armed forces men and women who put their lives on the line so we can enjoy the great sport of fishing.

BDTP-V5

American Flag

USA themed board and American Flag will be the biggest hit on the ice. Show your pride for your country on the hardwater!

BDTP-AF

The Jolly Roger

The skull and crossbones gets the conversation going - show them who's boss out on the ice!

BDTP-JR

The Original Red on Red Beaver Dam

Struggle to see your tip-up while fishing? This bright Red tip-up also comes with a 22" ruler engraved along the size to help measure the thickness of the ice as well as your catch.

BDTP-RD

Walleye **NEW**

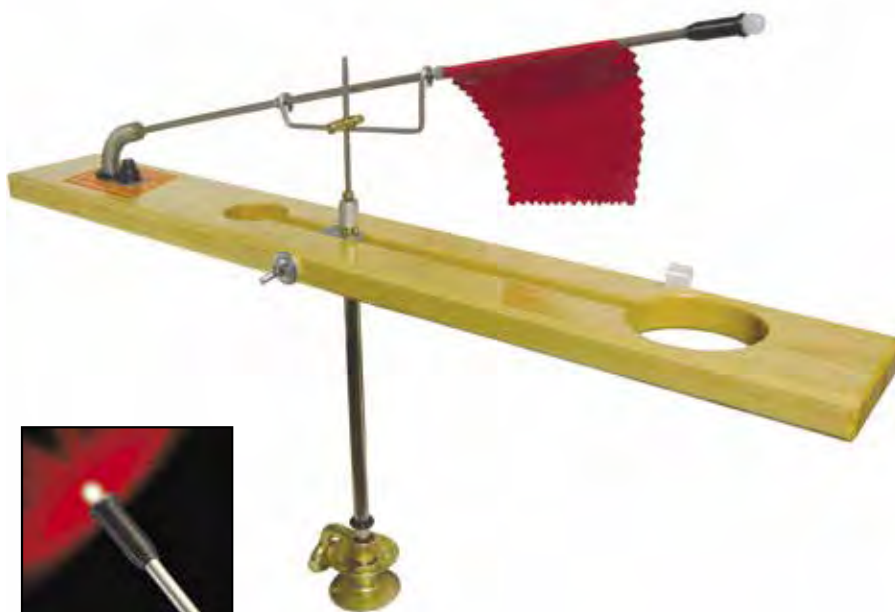

Designed by facebook contest winner Bob Kendall. The walleye tip up features a walleye themed board and flag!

BDTP-WA

Northern Light Tip-up

This Beaver Dam tip-up has an all-new Beaver Dam tip-up with an integrated light system built in for best performance and ease-of-use. Simply push the ON button, position the flag and it will automatically alert with upright flag and super bright LED light when triggered by the bite.

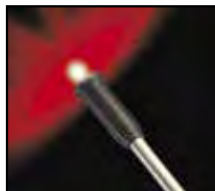

BDTP-NL

Simply push on/off button to activate the light, then position the flag in the down position - the light will turn off automatically, until the flag (and light) is triggered by a fish strike! After use push button again to turn light off.

Waterproof compartment securely holds (3) AAA batteries (not included with purchase).

Super bright red LED light - when a strike occurs, the flag arm is released and the light turns on automatically when in the upright position.

Round Tip-up

10-inch, insulated, featuring our legendary main assembly.

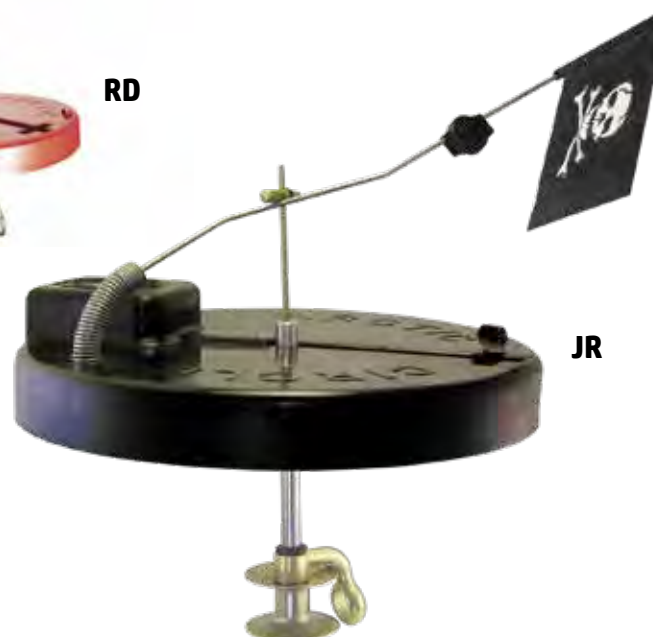

Beaver Dam's New Arctic Circle thermal tip-up sets the bar for the ultimate round plastic tip-up. We have taken a 10" round plastic base and added 1" of foam to the bottom to insulate your hole. We also added our legendary main assembly to give you the smoothest and best built tip-up money can buy. This tip-up is as smooth as the original Beaver Dam wood tipup. Walleye's don't stand a chance with this tip-up over their heads!

Glass Noodle

- Uniquely designed, ice fishing specific soft tip for light bites
- Ridged backbone design for better hook sets
- Hi-vis orange tip for visual bite detection
- Spool has 4 lb mono on it

Beaver Dam knows that panfishing is serious among hard-water anglers, but until now, ice anglers had to settle for rods that were not really made for them. The Custom Noodle rod was made with ice fishing in mind for anglers who want just that. Don't settle! Get serious with the Custom Noodle Series that is made JUST for ice angling.

The Custom Noodle Series has a soft tip, but ridged blank that allows for detecting bites while still ensuring positive hook sets. A High-Vis orange tip for detecting subtle hits is helpful while lightweight stainless line guides are durable. Comfort fit cork handle is stock. The rods offer uniquely machined, ice fishing-specific soft tips for soft bites, from finicky bluegills, crappies to thumper walleyes.

Tip Down

The Tip Down from Double H Outdoors is an efficient alternative to the bulky and expensive options on the market today. System simply clips onto the bucket handle for ultra-sensitive tip-down fishing. Three mounting positions are available to provide balance on nearly all ice fishing rod combos. **TIPDN-1**

Pop Up Rod Holder

This convenient rod holder will clip onto your portable ice shack frame, horizontally for jigging, or vertically for storage. Designed to fit many different sizes of tubing – both round and square. **POP-1**

Portable Beverage Holder

Portable Beverage Holder is designed to clip onto any portable ice shack frame to keep your beverage near. Will fit many different sizes of tubing – both round and square. **PBH-1**

Easy Reel™ System

The patent-pending Easy Reel™ System allows for convenient line retrieval and storage. Reel simply snaps onto the spool of most popular styles of tip-ups, while the hook holder slides onto the end for two reasons – to hold the reel in place during storage and to hold troublesome treble hooks in place. **ER-1**

Universal Rod Holder

The Universal Rod Holder is aptly named due to its many uses... clip onto the edge of any bucket, or snap into one of the many available slots on the Tip Up Locker™ for storage of your ice fishing rods. Or, mount to any portable ice shack frame to hold your extra poles. **URH-1**

45 Degree Rod Holder

Add the 45 Degree Rod Holder to your ice fishing bucket for a convenient jig pole holder. Clips to inside or outside of bucket for versatility. Small, but innovative notches on the 45 Degree Rod Holder also allow mounting to portable ice shack frames if jigging is more your forté. **45RH-1**

Beverage Holder

The Beverage Holder will clip on the inside or outside lip of your bucket for convenient storage of your refreshments. You may find it quite useful with all those fish you will be reeling in. **BH-1**

Wax Worms PB-WW

Genuine cream-color wax worms naturally preserved to retain their original consistency, scent and fish-catching power. Also great for ice fishing! 36 baits per resealable poly bag.

Meal Worms PB-MW

Soft 'n juicy Meal Worms are naturally preserved to remain pliable and lifelike. Tender preserved larvae are soft on the inside but with a tough skin to keep them on the hook. Also great for ice fishing! 24 baits per resealable poly bag.

Snelled Spring Trout Hooks

Premium Snelled, Springed Trout Hooks feature a spring loaded hook that holds molded trout bait to the hook longer for more catches! Easy-to-use system ties on quickly to your main line, then simply mold Zeke's Floating Trout Bait to the springed hook and you're ready to start catching fish.
