RHINO

TRUSTED & TOUGH

Rhino series of rods are built on a reputation of affordable toughness. Starting at the rod tip, heavy-duty stainless steel guides prove formidable where abuse and breakage frequently tend to occur. Moving down the blank you'll find line guides that are super tough yet silky smooth for free line flow. The un-sanded brute-tough blank itself is made of cross-weave construction for a tougher, more stable blank design. Rhino tough rods are backed by a 10-year warranty.

THROTTLE REELS AND COMBOS

PAGE 24

Quantum's Throttle family of reels and combos have been elevated to a new level of durability and smooth performance. Cutting-edge engineering and refined technologies give Throttle reels unbelievably smooth gear feel, with rods also being fine-tuned for improved actions and longer-lasting durability.

SPINNING

Using Reel Engine Design, Quantum's Smoke S3 series is a spinning reel in an all-aluminum unibody construction, which keeps all the gears and key components in precise alignment for a smoother more durable reel, versus more typical 2-part reels. Speaking of gears, Smoke S3 reels feature an asymmetric gear that is forged and machined from high-strength aluminum to allow the gears to mesh better for incredible durability and smoothness.

SMOKE S3

BAITCAST

You don't build a product this exceptional by going with the flow. So while most of the fishing industry focuses on smaller reels with tiny spools, Quantum engineered a larger 35.5 mm spool into a very compact frame to provide anglers plenty of line capacity, longer casts, and more inches of line pick-up with every turn of the handle, compared to smaller spooled reels currently littering the fishing industry. However spool size becomes somewhat irrelevant without a top-notch braking system, so Quantum performed a tremendous amount of engineering research to develop an ACS 4.0 cast control that is lighter in weight which minimizes the amount of energy it takes to get the spool spinning on a cast, along with additional brakes that disengage around 5,000 RPMs to maximize distance.

DRIVE

SPINNING

The Quantum Drive spinning reel is built from the same unibody construction as the popular Quantum Throttle with precisely aligned gears for the sort of smoothness found in much pricier reels. Quantum's exclusive Reel Engine Design means the graphite body used to build Drive is all one gear box, compared to the 2-piece construction found in lesser quality, looser-feeling, reels at even higher prices.

- **R-E-D GRAPHITE UNIBODY DESIGN**
- **DOUBLE-ANODIZED LONG STROKE ALUMINUM SPOOL**
- **ANODIZED ALUMINUM BAIL WIRE**
- **CONTINUOUS ANTI-REVERSE CLUTCH**
- **CHANGEABLE RIGHT- OR LEFT-HAND RETRIEVE**
- **9 BEARINGS (8 + CLUTCH)**

CABO

SPINNING

Saltwater

There's a reason that Cabo has been one of our most popular saltwater reels for over a decade. The latest Cabo series is built for long-lasting, fish-stopping performance – from the indestructible TiMag bail to the multi-layer corrosion protection.

- SCR ALUMINUM BODY AND SIDE COVER
- MAGNUM CSC DRAG SYSTEM
- TIMAG TITANIUM FAIL-PROOF BAIL WIRE WITH MAGNETIC STRIP
- SALTGUARD PROTECTION
- MAXCAST II SPOOL
- PERFORMANCE BEARINGS

HOT SAUCE

REEL OIL

Quantum Hot Sauce Reel Oil bonds molecularly with metal surfaces forming a permanent lubrication layer that will not wash off. This ultra-low viscosity lubricant allows unrestrained rotation of the crank handle, and supports a lightning-fast free spool spin to your reel. In addition, special additives assist the lubricant to molecularly bond with the base metal, creating superior corrosion protection that safeguards against the elements, ensuring optimum performance for the life of your fishing reel.

- **100% FULL SYNTHETIC REEL OIL**
- **SPECIALLY FORMULATED FOR FISHING REELS**
- **FIGHTS CORROSION BY FORMING A PROTECTIVE BARRIER**
- **LOW VISCOSITY ENHANCES FREE ROTATION AND GREATLY REDUCES NOISE**
- **IMPROVES CASTING DISTANCE**

REEL GREASE

Quantum Hot Sauce Reel Grease provides smooth, long-lasting lubrication for all fishing reels. Its hydrophobic formula forces water away to prevent corrosion and structural breakdown. This formula will not deteriorate due to heat and wear, and is specially developed with ultra-low friction polymers that bond to all-metal parts to ensure optimum performance for the life of your fishing reel.

- **100% FULL SYNTHETIC REEL GREASE**
- **SPECIALLY FORMULATED FOR FISHING REELS**
- **FIGHTS CORROSION BY FORMING A PROTECTIVE BARRIER**
- **PREVENTS BREAKDOWN UNDER HEAVY LOAD AND EXTREME HEAT**
- **SUPERIOR ADDITIVES FOR LOW-FRICTION SURFACE, TO ENHANCE PERFORMANCE**
